## Profesional experience

## Education

## Job related skills

Numerical modelling · Spatial interpolation techniques · Web map services · Analysis of specific or extreme events · Reporting and communication · Versatility · Autonomy and fluid collaboration

## Technical skills

### Programming

Functional programming  
Object oriented programming  
Test-oriented development  
Control version system (git, svn)  
Jupyter-notebooks  
Unit tests

**Web** HTML, CSS, markdown, javascript, Bootstrap, Jekyll, wordpress, Dokuwiki, Mediawiki

## Data analytics

Spatial interpolation Geostatistics Big data Predictive modelling Cloud computing Data visualisation  
Neural networks Signal processing Open data OGC standards

## Soft skills

**Project management:** Planning and monitoring · scientific and technical reporting · specification documents and strategic plans · team leading, recruitment · applications for grants and supports · lean and agile management

**Communication:** Presentations at international conferences (English, Spanish, French) · design of posters and leaflets (Darktable, GIMP, ImageMagick, Inkscape) · social networks · scientific outreach

**Organisation:** International scientific meetings ( 200 participants from 40 countries) · User training workshops

**Languages** ..... English ★★★★★ Catalan ★★★★★ Italian ★★★★★  
French (native) ★★★★★ Spanish ★★★★★ German ★★★★★ Dutch ★★★★★

## Personal interests

Photography Ultra and mountain running OpenStreetMap editing Travel blogging
